Monday to Friday	8.45 a.m. to 6.45 p.m.
Saturdays, Sundays and Public Holidays	closed

Islands Home Affairs Enquiry Centre (Mui Wo)

Mondays, Wednesdays and Fridays	9.00 a.m. to 6.00 p.m.
Tuesdays, Thursdays, Saturdays, Sundays and Public Holidays	closed

Islands Home Affairs Enquiry Centre (Tung Chung)

Monday to Friday	9.00 a.m. to 7.00 p.m.
Saturdays, Sundays and Public Holidays	closed

Further queries regarding the proposed works can be addressed to the District Lands Office, Islands, 19th Floor, Harbour Building, 38 Pier Road, Central, Hong Kong (Telephone No.: 2852 4265).

Any person who considers that he has an interest, right or easement in or over the foreshore and sea-bed so described may, by notice in writing delivered to the Director of Lands, 20th Floor, North Point Government Offices, 333 Java Road, North Point, Hong Kong before the expiration of two months from the date of this notice, object to the proposed undertaking. The notice of objection shall describe the interest, right or easement of the objector and the manner in which he alleges he will be affected.

SCHEDULE

Foreshore and sea-bed affected

Description of the undertaking and the manner in which the foreshore and sea-bed will be affected by the proposed undertaking

Approximately 1 425 square metres of foreshore and sea-bed from Telegraph Bay to Pak Kok Tsui, as delineated and shown by a bold red line on a plan, numbered ISM3219b, deposited in the Land Registry.

- (i) Installation of an optical fibre submarine cable of approximately 2.25 kilometres in length and 60 millimetres in diameter.
- (ii) A cable-laying barge will be employed to simultaneously lay and bury the submarine cable in a trench of about 0.5 metre in width at a target burial depth of about 3 to 5 metres below the sea-bed. For the cable section approaching the landing sites where the foreshore is rocky, the cable will be installed by diver(s) and protected by articulated pipe.
- (iii) When the proposed cable crosses with the sub-cropping rock areas, a shallower burial depth of about 1 to 2 metres below the seabed may be required. Additional cable protection will be employed, which may include placing reinforced precast concrete mattresses on top of the submarine cable, placing the submarine cable in articulated pipe or 'Uraduct' prior to cable burial. The affected area will be of approximately 200 metres in length and approximately 2 metres in width.

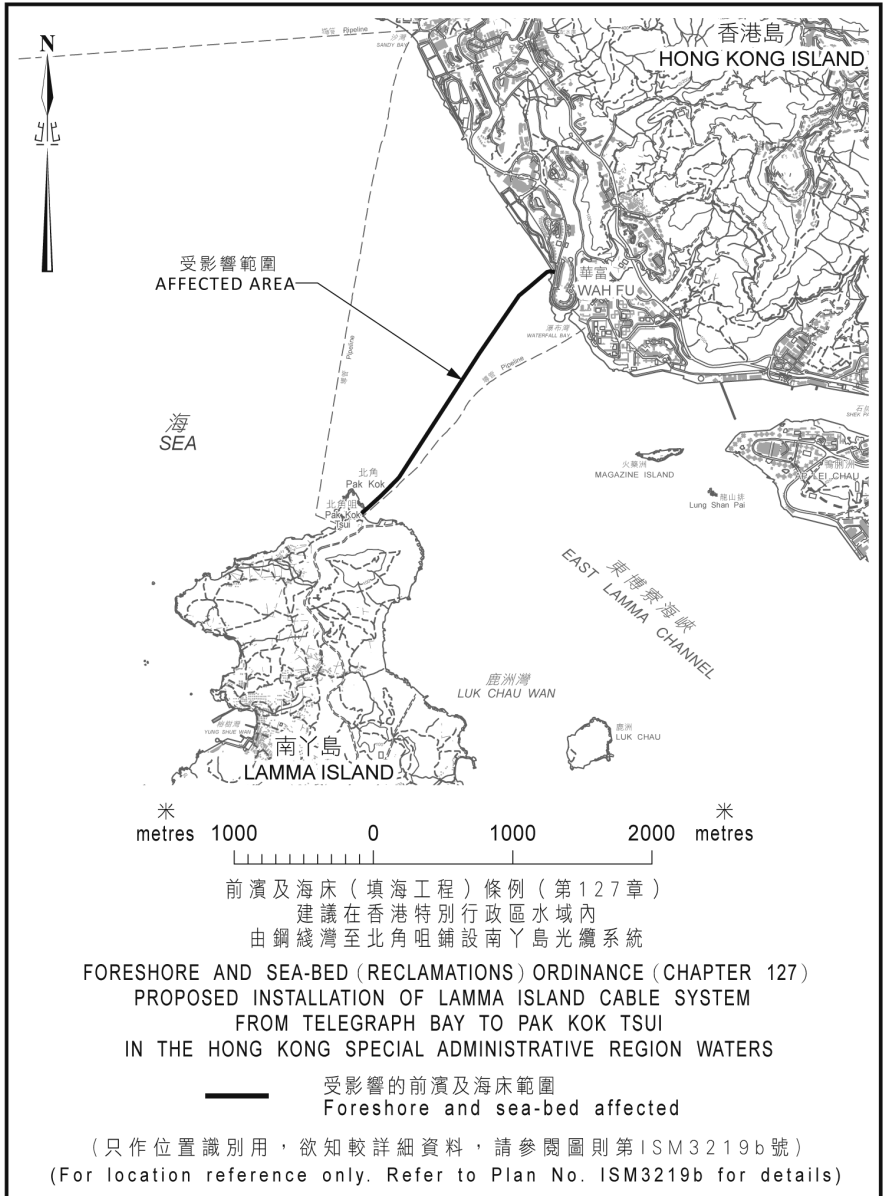

The area of foreshore and sea-bed affected is shown on the plan on the next page for identification purposes only. The area is more particularly shown on the plan numbered ISM3219b above referred to.

Personal Information Collection Statement

Any information, including the personal data, submitted to the Director of Lands in connection with any written objections/comments will be used for the processing of the objections/comments and other related purposes. The provision of any information, including the personal data, other than the information as required under section 6(2) of the Foreshore and Seabed (Reclamations) Ordinance (Chapter 127) is voluntary. However, it may not be possible to process the objections/comments if such information, including the personal data, is not sufficiently provided. Any information, including the personal data, so submitted may be disclosed to the relevant government departments and other persons, organizations or agencies which are required to handle the objections/comments and related matters. Persons who have so submitted their personal data have the rights to request access to and correction of their personal data held by us. Request for access to or correction of the personal data should be made in writing to the Departmental Personal Data Controlling Officer of Lands Department at 21st Floor, North Point Government Offices, 333 Java Road, North Point, Hong Kong.

2 September 2022

Alan LO Deputy Director/Specialist, Lands Department
