The relevant person must keep and produce on request the relevant documentary proof to a prescribed officer as required below:—

- (a) in respect of a person who had been tested positive in a PCR test—the relevant SMS (mobile phone text message) notification containing the positive result of the test; or
- (b) in respect of a person who had been tested positive in a RAT—the relevant SMS (mobile phone text message) notification or isolation order issued after making a declaration on the Government’s “Declaration System for individuals tested positive for COVID-19 using Rapid Antigen Test”.

If the relevant person cannot produce the relevant documentary proof as set out above, then he/she must still undergo the relevant test(s).

If a person who needs to comply with the relevant test(s) and the sample(s) for such test(s) should be taken through combined nasal and throat swabs, is issued a medical certificate by a registered medical practitioner (*relevant medical certificate*), proving that he/she is unfit to undergo the relevant test(s) using sample(s) taken through combined nasal and throat swabs because of health reasons, then he/she may undergo the relevant test(s) using deep throat saliva sample(s). Relevant person must keep the SMS notification(s) containing the result(s) of the test(s) and the relevant medical certificate.
